The funeral will be held from the Congregational Church tomorrow at 2:00 o'clock. The Eastern Star members will attend in a body as a tribute to their beloved sister and former Worthy Matron.

Beautiful Girl Weds Grandson Of A Pioneer

Miss Norma Hansen and Nicholas Carriger, Jr., Married Last Sunday at Parsonage.

Last Sunday at high noon Rev. Isaac Cookman united in marriage Miss Norma Hansen and Nicholas Carriger. The young couple were attended by the bride's sister and her husband, Mr. and Mrs. Joe Keechler Jr. The ceremony was a quiet one at the parsonage, plans for a large wedding being changed owing to a recent bereavement in the family.

The bride, a handsome blonde wore a modish canton crepe frock of the new cinammon color with gloves and chic hat to match.

After the ceremony a dainty wedding breakfast was served at the home of Mr. and Mrs. P. Hansen of El Verano, parents of the bride, where the happy couple were toasted and many nice gifts bestowed on them.

Miss Hansen was one of the popular belles of the Valley of the Moon and one of the prettiest girls in the vicinity.

The groom is the grandson of the late Nick Carriger who was a prominent pioneer of Sonoma and a leading Californian "in the days of old and days of gold."

The young couple will reside at Point Richmond in a pretty apartment prepared by the groom who is an employee of the Standerd Oil Co.

Sonoma Valley Urged to Vote for Miss Beth Lane, Local Favorite

Sonoma Valley's beautiful young girl candidate for Godess of Liberty, Miss Beth Lane, has two pretty rivals for the honor of presiding over Sonoma's celebration. Miss Wilma Rorden of Petaluma and Miss Eleanor Cockhrin of Santa Rosa. The Petaluma and Santa Rosa Chambers of Commerce are behind their respective candidates and as Sonoma has no active organization to boost for its Godess, every citizen must take an interest in seeing that votes are piled up for Miss Lane thus assuring Sonoma Valley of the honor of coming out first in the contest. The young lady with the highest vote in Sonoma County will be chosen Godess of Liberty and the beautiful ceremonial attending her rule over the Fourth of July in Sonoma will go down in history as one of the finest patriotic spectacles ever featured in California.

Miss Beth Lane is worthy of all the votes that can be bestowed upon her. She is a typical American girl, tall, fair and graceful. With such a charming Goddess Sonoma can't afford to let any other communities take first honors away from us. Votes are on sale at all stores. The time of the contest short. Vote for Miss Lane the coming week and assure her election. If you cannot get votes ring up J. F. Reid atthe city hall and he will supply you. Phone 112W.

The voting places of the Goddess contest in Sonoma are as follows:

Duhrings, Sonoma Valley Shoe Store, Corner Drug Store, Simmons Drugg Store, F. Clewe, and G. H. Hotz Dry Goods Store.

Pioneer Family Celebrates Coming To Sonoma

The home of Mr. and Mrs. A. W. Adler was the scene of a splendid reunion dinner party last Sunday in honor of the 75th anniversary of the Adler family's coming to Sonoma. On the property purchased in early days by Lewis Adler, father of the present representitive of the family, Adam Adler has built a beautiful residence although the nucleus of the old home is still standing. The dinner was served a-la-fresco under an arbor over which is growing a sturdy wistaria vine planted thirty years ago. Here a delicious menu was served under the direction of Mrs. Adler and her assistants, covers being laid for twenty guests. The place cards and table decorations were in keeping with the occasion and the various courses served thoroughly enjoyed. There were toasts to the pioneers, including the late Lewis Adler, a toast to his son, Adam Adler and also to the pioneer's daughter, Mrs. Amelia Bates, now 72 years of age.

Interesting reminescences of the pioneers life were told. Lewis Adler came to San Francisco on a whaler from London in 1846. He had left his native land and Disseldorff when a mere boy and followed the trade of a cooper at sea until he landed in California.

In San Francisco he went to work for Wm. H. Davis (Kanaka Davis) who kept a store there in the early days. A little later he became associated with Dixon and Hay importers and exporters who traded with Embarcadero, and while buying produce for them here, Adler decided it was a good place to settle, so established a store at the landing in 1848. A year later he started a general merchandise business in Sonoma opposite the Blue Wing, calling his store The Bee Hive". In 1849 he bought the present Adler home property where he settled with his bride, formerly Mrs. Ann Bones who had come across the plains with relatives a few years previous.

In 1855 Adler went into the wholesale business in San Francisco, after a trip to Europe. He also retained his Sonoma interests. In 1859 Mr. Adler was a member of the city council of Sonoma, and held many other public positions of trust throughout his life time. His enterprise and thrift won him success in his various undertakings, and in 1876 he retired to enjoy his wealth and ease in the valley which had so long been his home.

Mr. Adler's first wife having passed away, he remarried in 1874, his second wife being Miss Martha Winkle of a prominent family of California viticulturists. Three sons and one daughter were descendant of the pioneer, the youngest son A. W. Adler by his second marriage and his only daughter, Mrs. Amelia Bates by the first marriage being the survivors of the pioneer today. Lewis Adler died in 1896.

Adam Adler treasures many family relics and interesting old documents of his father. Among those recently brought to light were two receipts for California gold dust to the value of $10,000 which Lewis Adler sent to London to be coined in1850, many old book accounts, deeds, periodicals and records of the forties. He will exhibit some of these at the Mission Centennial where he heads the committee on the display of pioneer relics.

Among the relatives present at the reunion dinner so hospitably presided over by Mr. Adler and his wife last Sunday were Mrs. Amelia Bates, Dr. and Mrs. W. B. Hays, Mr. and Mrs. Henry Bates, their daughters, Mrs. Nancy Olin and Miss Zolita Bates, little Nancy Zoe Olin, Joe Mc Mullin, Miss Irma Adler and Leland Adler, daughter and son of Mr. and Mrs. A. W. Adler. Friends included R. K. Weaver, Miss Wilson of San Francisco, Mr. and Mrs. F. Dal Porto and Mr. and Mrs. W. L. Murphy.

John Steiner of the Union Hotel, has been confined to his room this week with a return attack of reheumatism. Dr. Hayes has been in attendance.

Bridal Party to Wear Costumes Of Olden Times

Spirit of Centennial Invades Nuptial Ceremonies Today of Miss Alice Lawrence and R. L. Stanleigh.

Today at high noon the home of Mr. and Mrs. Z. Lane will be the scene of a pioneer wedding, the principals being Miss Alice Lawrence, formerly of Berkeley, and Robert L. Stanleigh of Sonoma. Imbued with the Mission Centennial spirit these young folks and their attendants will all wear pioneer costumes.

The bride will be a dainty picture in her dimity frock of ruffles and rare old lace and the groom will present a striking picture in his frock coat, brocaded vest and tall hat.

Mrs. Stanley A. Robinson, in pioneer costume, will be matron of honor and Miss Beth Lane in another lovely dress of the same period will be of the bridal party. S. A. Robinson will be best man and the bride's brother, James Lawrence, will give her away. Rev. Stephen E. Crowe will read the marriage service. The bridal party will march from the Lane drawing room out onto the lawn where the ceremony will take place.

Miss Lawrence is a sister of Mrs. Robinson and a young lady of charming personality and refinement. She has been connected with the comptroller's office at the University of California.

Mr. Stanleigh, the groom, is an Eastern young man of fine attainments and has had a responsible position with the Index-Tribune for the past two years. He has been employed by leading publications of the United States prior to locating in Sonoma.

Wm. H. Inves of Glen Ellen Freight Line Involved In Disappearance of Many Dollars Worth of Goods.

With the arrest of Wm. H. Ives, a brakeman on the Glen Ellen branch of the N. W. P. railroad, a series of thefts and disappearance of much freight from the company was brought to light.

There have been 50 freight car robberies on this branch of late, goods disappearing with a value of from $75 to $500 at various times. Ives is thought to be the inside man of a gang of robbers. He is 29 years old, married and has been residing on East Napa St.

Pending further inquiry into the ring of higher—ups, who are believed to have used Ives, the accused was sentenced to 25 days by Judge Vaughn in Santa Rosa Thursday.

THREAT OF SUIT OVER RIGHT-OF-WAY

J. H. Murray Demands $4000 Because State Highway Encroaches on Garage Frontage.

The Supervisors and the committee on procuring state highway rights of way between Schellville and Beltane thought they had everything ready to turn over to the State Highway Commission without further controversy or adustment when J. H. Murray protested against the encroachment of the new road on his property and on Tuesday demanded $4000 from the county. Murray declared that he deeded seven feet frontage on his line under the impression that it would not affect any of his buildings. He says it waes so represented to him, but that recently the State Highway engineer run the lines on the highway at that point and the survey brought to light the fact that the Murray garage, or barn, would have to go back seven feet and that a number of trees and shrubs would have to come out.

The Supervisors offered Murray $1100 damages as a result of the showing and agreed to move his building but the offer was refused. The property owner wishes to move back the garage and claims that to put it in proper condition and build a retaining wall along the creek at that point the change will entail a $4000 expense.

The Board of Supervisors decided $4000 was too fancy a price and upon Murray's rejection of $1100 withdrew the county's offer. A suit is now being threatened by Murray, but as his deed to the land he gave for highway purposes is of record, progress on the new road and the letting of the contract for the Schellville-Beltane highway will proceed despite any litigation which may ensue.

Miss Rita Helberg has been home from the Federal Reserve Bank in San Francisco, spending her vacation.

The John Brendels formerly of Schellville but later of San Francisco have sold out their city business and gone to Southern California where they will engage in the bakery business.

Noller was highly regarded during his many years residence in this valyel and his actions aned subsequent whereabouts after dropping out of sight will remain a mystery unless he expl ins it. Some of his lodge brothers believe he must have suffered a lapse of memory which accounted for his months of silence despite inquiries broadcasted through lodges, city officials and newspapers.

You Can Screen Out Summer Insect Pests

YOU CAN DESTROY the breeding places of Flies and Mosquitoes, as well as trap and kill many of them—and you ought to do so. But there will still be enough of these pestiferous insects left to make summer comfort out of the question if you don't screen them out of your home.

Flies and mosquitoes work in relays; flies by day and mosquitoes by night; and then there are the moths and other night flying insects. Your only protection from their assauults is screening of windows, doors and porches.

The annoyance caused by flies and mosquitoes is reason enough for screening them away from folks; but that is a trifle compared with the terrible losses in health and life they cause as carriers of disease.

You must screen early because a single last year's left-over female fly can populate a whole neighborhood. Mosquitoes are also prolific.

Better let us measure your windows for screens today; doors, too, of course. And you'll be wise to make a summer room of that porch by screening.

We are at your service and we'll do the job right; but remember, flies and mosquitoes start early in the Spring and work fast.

SANTA ROSA'S CANDIDATE FOR SONOMA FETE

That Miss Eleanor Cockburn daughter of Mr. and Mrs. William Cockburn, and a member of this year's graduating class from the Santa Rosa Business College will be the Goddess of Liberty at the Sonoma Centennial Celebration was the prediction made in Santa Rosa today. Miss Cockburn was nominated by 125 other members of her class and officials of the school yesterday, and her numerous friends predict that she will be elected Goddess of Liberty for the celebration.

Miss Cockburn's entrance into the lists was recorded yesterday with the receipts of the following letter by Frank P. Dole, president of the Santa Rosa Chamber of Commerce.

To Honor City

"Understanding that the various chambers of commerce are the avenue through which are presented nominations for the participants in the Goddess of Liberty Contests, the Santa Rosa business college has the honor to present Miss Eleanor Cockburn, a member of its graduating class for 1923, a Santa Rosa, Sonoma County girl, who will grace the position and do honor to her city, county nd sponsors.

We enter our candidate with 5,000 votes.

Sincerely yours,
Santa Rosa Business College,
(Signed) J. S. Sweet, President

Since the business college started Miss Cockburn off with 5,000 votes she has received two thousand additional votes bringing her total up to seven thousand and giving her a good start in the race for "Goddess of Liberty" at the Sonoma Centennial celebration.—Republican.

JOHN NOLLER HAS BEEN LOCATED

John Noller former employee of the Jones ranch and prominent in several fraternal Orders has been located afsuddenly dropping out of sight last summer. He left Sonoma in the midst of the Redmen Convention festivities and even abandoned his car without a word of explanation. Despite repeated efforts to get a trace of him he could not be located. This week he wrote to some of his old friends stating that he was in San Jose.

Noller was highly regarded during his many years residence in this valyel and his actions aned subsequent whereabouts after dropping out of sight will remain a mystery unless he expl ins it. Some of his lodge brothers believe he must have suffered a lapse of memory which accounted for his months of silence despite inquiries broadcasted through lodges, city officials and newspapers.

You Can Screen Out Summer Insect Pests

YOU CAN DESTROY the breeding places of Flies and Mosquitoes, as well as trap and kill many of them—and you ought to do so. But there will still be enough of these pestiferous insects left to make summer comfort out of the question if you don't screen them out of your home.

Flies and mosquitoes work in relays; flies by day and mosquitoes by night; and then there are the moths and other night flying insects. Your only protection from their assauults is screening of windows, doors and porches.

The annoyance caused by flies and mosquitoes is reason enough for screening them away from folks; but that is a trifle compared with the terrible losses in health and life they cause as carriers of disease.

You must screen early because a single last year's left-over female fly can populate a whole neighborhood. Mosquitoes are also prolific.

Better let us measure your windows for screens today; doors, too, of course. And you'll be wise to make a summer room of that porch by screening.

We are at your service and we'll do the job right; but remember, flies and mosquitoes start early in the Spring and work fast.

WITH THE EDITORS IN YOSEMITE

The California Press Excursion into the Yosemte in 1923 will linger long in the memories of those who took the trip. Not only was it a pleasure to have Governor Friend W. Richardson, the Association's president with us, but it was good to meet with all the old time newspaper men and the newer members of the organization. The meeting place, Yosemite Valley is all that can be desired for any gathering and at this season it is indeed the wonderland and beauty spot of the West.

By chance the Librarians and District Attorneys of California were holding their conventions in the Yosemite while the Press Association was in session and as a result we came in contact with many interesting and delightful people.

Among the Librarians was a quaint pleasant faced lady from the South who over-hearing a conversation about the Governor, spoke up and said that he was her cousin; that she had known him since he was a boy 13 years old; that while she agreed that he was a good Governor, he was the same good man that he had always been.

Among the District Attorneys of California was one from a prominent county who frankly discussed his experience in the enforcement of prohibition laws. He confessed prohibition a hard law to enforce because it does not run with the grain of the American people. He recited many instances to show the workings and effect of the law today. Liquor has become a school problem, something before unheard of declared this county official. Peple drink who never drank before. Constables and deputy sheriffs pick on foreigners and those in whose family there are few votes which accounts for much law-breaking being laid at the door of foreigners.

Some officials take bribes. Juries even in church communities do not convict. Smuggling is common along the coast of California. All sorts of ruses are used to transport liquor. It even goes on board big steamships at San Francisco masquerading as festive wedding cake (the frosting and decorations being knocked off when the boat is out beyond the three mile limit.) This District Attorney is wise. He also is alarmed. He believes that if Californians voted today on a wet or dry state they would vote for light wines and beer rather than foster the present hypocrisy.

Hetch Hetchy

We traveled by auto 78 miles from the Yosemite to sample Hetch Hetchy, the water in the immense $45,000,000 dam constructed for San Francisco. Hetch Hetchy means in Indian, plenty, plenty. It is a valley of plenty mountains, plenty of game and fish, plenty trees and plenty water. The reservoir or lake is 7 1-2 miles long, The dam is built of concrete, enough if used for roads to pave the entire distance from Yosemite to San Francisco. The water will be carried through 156 miles of aqueduct of which 87 miles is tunneled through solid granite at a cost of $80 per lineal foot. Lake Eleanor and several water falls of the Tuolomne River are the source of supply. It is fine cool crystal mountain water. If San Francisco must drink water it cannot get better. Hetch Hetchy will be completed by 1924. A steam railroad has been built from Stockton into the mountains and is owned by the city of San Francisco.

Pleasantries of Trip

Elmer Mobley of the Santa Rosa Republican led the josh cohort on Murphy's beard. "Bah" a beard but it went big and advertised the Sonoma Centennial all over the Yosemite. Mike Cochran of the San Rafael Independent was a good booster for Sonoma too. Marin and Sonoma went hand in hand and Mike is coming to the celebration.

Mr. and Mrs. Oakes of Haywards were of the editorial party. Oakes' father Tony Oakes was a famous caterer of pioneer days in Sonoma. Geo. Oakes, his son will be here with his wife to participate in the Mission play. He will wear his dad's silk hat.

The trip to the Vernal and Nevada falls was made over a steep trail on horses and mules. Spark Plug ridden by ye Editress was a knowing beast and on the hurricane deck of this noble animal some marvelous canyons were viewed. Vernal Falls takes a sheer drop of several hundred feet and is by far the most beautiful of all we saw. At the top of the Fall, the Editorial party had a picnic lunch, dressed the Governor up in forest ranger's costume, sang old and new songs around a camp fire and had the experience of a mountain shower.

We left beautiful Yosemite Valley and our party with much regret on Thursday, June 11th. The Association remained until Sunday.

FORD EXPANSION PROGRAM AFFECTS NUMEROUS CITIES

One phase of the Ford Motor Company's expansion program, entailing the expenditure of millions of dollars, is strikingly illustrated in a survey of improvements made in assembly plants throughout the country, all of which have brought better business and employment conditions to the several cities affected.

The survey, which is just announced through The Ford News, shows that every assembly plant of the company, numbering twenty-eight, is now in full operation and producing more Ford cars and trucks than ever before.

New additions have been erected, or are under construction, new equipment has been installed and greater facilities afforded all around.

The plant at Atlanta, Ga., has been considerably enlarged since its re-opening a year ago. At that time its capacity was 150 cars and trucks a day. This already has been increased to 210 and when improvements are completed the maximum for an eight-hour day will be from 250 to 275.

Railroad tracks which formerly ran inside the building have been removed to make way for an assembly line and a new concrete loading dock will be completed in June on which big stock conveyors will be installed running into the building.

The Cleveland, Ohio., assembly branch, has been entirely re-equipped and is now assembling cars at the rate of 150 a day. A new electric enameling oven is in process of construction there to further facilitate the work.

Several changes have been made at Louisville, Ky. branch where a one-story addition has been erected. The assembly line has been removed from the third to the first floor, a body oven has been installed for drying all paint coats on open bodies and the finish varnish coat on closed bodies, and a new type electric enameling oven is being erected. Production has been increased from 100 to 170 cars a day.

At Indianapolis, Ind. the branch assembly line has been greatly extended and dock facilities increased which permits this branch to turn out 300 cars a day.

Denver, Colo., and Portland, Ore., have again been opened as assembly plants with a daily production of 150 and 550 cars respectively.

Columbus, Ohio and Houston, Tex. branches have been equipped with extensive drying ovens and recently enameling ovens have been lengthened in twelve other assembly plants.

The New Orleans, La. branch is now housed in a complete new building, 425 by 425 feet, employing approximately 700 men and turning out from 150 to 200 cars a day, together with 25 closed bodies daily.

F. Partridge was in town from San Francisco last Saturday looking over his new 15 acre vineyard which is flourishing.

FORD SALES

The following Ford cars and trucks were sold by E. Coates of the Ford Agency last week. C. Carstensen, touring car; D. Sinclair, touring; L. Parente, truck; Sonoma Ice Co., truck; Sonoma Land Co., roadster; A. Polzin, coupe.

Dr. A. M. Thomson is to attetnd the sessions of the American Medical Association which meets in San Francisco the last week of this month.

Mrs. Fred Schell and her sister, Mrs. Harry Fuller of San Francisco were in town yesterday in Mrs. Schell's new Nash touring car which was a recent birthday gift to her from Mr. Schell.

A VICTORY FOR AMERICAN MOTORISTS

The Crude Rubber Monopoly weakened when it came into contact with aroused public sentiment. The press of the country today reflects the determination of the American motorist that tire prices shall stay at a reasonable level—and that America must produce its own rubber.

Firestone

Cuts Tire Prices 10%

EFFECTIVE JUNE 11

We announce a 10% reduction in tires and tubes effective June 11. The lowered cost of crude rubber and the special Firestone manufacturing and distributing advantages make this possible.

Firestone factories are organized on a basis of large volume and effective production. Costs are down, but quality is at its peak. Stockholder workmen are daily building many thousands of Gum-Dipped Cords—the best tire Firestone ever produced and, we believe, the leader on the market today.

Firestone cords took the first four places and eight of the ten money positions in the Indianapolis sweepstakes, May 18, without a single tire failure.

Firestone Gum-Dipped Cords have set new standards in mileage, traction, comfort and safety. Car owners have expressed their approval of the extra value in Firestone Gum-Dipped Cords by increasing their purchases 194% in the past six months.

We have replaced many expensive branches with warehouses. We now have 108 distributing points which are delivering Firestone tires to the consumer at the lowest cost in our history.

Follow the tide of economical tire buying—equip with Firestone Gum-Dipped Cords—and learn what Most Miles per Dollar means to you.

MISS WILMA BORDEN TO BE PETALUMA CANDIDATE FOR GODDESS

Miss Wilma Rorden, one of the most popular, sweetest and most charming young ladies of this vicinity, a member of a prominent family, and whose own personal friends are legion, has been selected as the Petaluma candidate for goddess of the great centennial celebration at Sonoma, the selection having been made by the Chamber of Commerce after careful deliberation and the people of Petaluma can, if they will make up their minds, elect her and a strong effort will be made to do so.

Should she not be elected as goddess, she will be named one of the attendants to the Goddess, and Petaluma desires her election and the Chamber of Commerce urges every organization in this city to strongly back the charming candidate from this city and to elect her over the entire county.

Miss Rorden has finally consented to be candidate for the honors and now it is up to her townspeople to elect her. With the Petaluma band as the official organization, with thousands of people from Petaluma present, including many local organizations, and a Petaluma goddess, this city would be very prominent at the great celebration which this city is backing to the limit, so let us elect Miss Rorden. Get your votes at the Chamber of Commerce. Let every organization of every kind assist. Let's go.—Petaluma Argus.

WHISKERS!

Sonoma's City fathers Wednesday night adopted an emergency measure providing for a Kangaroo court to enforce penalties on all male citizens who have not as yet given evidence that they are preparing to wake up at the proper time and place and fittingly bedeck themselves for the celebration.

WHISKERS HERE, WHISKERS THERE, WHISKERS EVERYWHERE. Everybody has 'em! and they must be real. Anyone found wearing false lilacs will be classed as a "bohunk", and will suffer the most extreme penalty provided for in the ordinance.

Section One of the ordinance defines whiskers as hirsute adornment, an irritant causing unlimited enthusiasm grown upon the cheek, chin jaws and Adam's apple of a male human being. "Mustache" is not whiskers, but only abetting or accessory thereto.

A Kangaroo court is also permitted and indulged in by the City of Sonoma, to exist during the Centennial Celebration and previous to the celebration, from the time of the signing of this charter.

This court shall consist of twelve men, judge, and attorneys and regular officers, respectively dressed depicting the days of early history, specifying some character. Section Six also says, "Anyone found guilty of artificially coloring or stimulating the growth of whiskers when in competition for a prize, shall be subject to a fine; provided that this shall not prohibit the use of lampblack, sour cream or peroxide."

The above are excerpts from the ordinance, which is now in effect, duly signed by the Sonoma City Council and attested by the City Clerk, H. W. Gottenberg.

Everybody Pleased.

A young lady at a crowded seaside resort was explaining to a circle of admirers: "Yes, it was dear mamma's birthday yesterday. I gave her a crimson parasol, with broad white stripes. She is so pleased! And so am I. Mamma is pleased to have a new parasol, and I am pleased because now I can see her coming a long way off."

Beavers Drive Away Deer.

A well-known guide offers a solution as to the reason for the scarcity of deer in places where they have formerly been numerous. A large part of it he attributes to the work of that busy little animal, the beaver. The beaver, he says, builds a dam across a brook that flows through a swamp. This overflows the swamp, kills the evergreens and drives the deer from his winter home.

And There You Are.

Barrister—"Was this arranged by word of mouth?" Witness—"I don't know what you mean. He talked and I talked, and there you are."

Good Advice, Ruth.

"Don't fret and worry after what may never happen," says Ruth Cameron. "One can waste just as much energy in false emotions as in false motions."—Boston Evening Transcript.

DRY AGENT PERUCCI AGAIN IN LIME LIGHT

M. Perucci the federal dry agent who tried to "get" Sam Sebastiani, prominent Sonoma wine man had another escapade in San Jose where he is now accused of black-mail. Here is the latest in regard to Perucci as taken from a San Jose dispatch of June 11th.

Mike Perucci of San Jose, one-time 'undercover" prohibition agent, whose declaration that he had been offered a $5,000 bribe if he would make an affidavit presumably designed to effect the acquittal of "Mike" McDonough, San Francisco ball bond broker, on a charge of bootlegging, was recently investigated by Harry C. Wheeler, is being sought today by San Jose officers who hold a warrant for his arrest on a blackmail charge.

Perucci, it is alleged had approached various persons in this vicinity offering protection in illicit liquor selling activities for amounts ranging from $25 to $100. Yesterday, it is alleged, he told Dominic Piccetti and A. Bondi, proprietors of the Liberty Hotel, San Jose, that Federal officers had evidence against them, and offered to intercede for $100. Bondi agreed to pay him $50 and made an appointment with him for this morning and then advised Chief of Police J. N. Black.

Black detailed two officers to watch the transaction and then arrest Perucci, but Perucci eluded them when he insisted that Bondi drive him to another place. After accepting Bondi's marked $50 bill, he disappeared in another machine.

better lubrication at *half the price*

If you could get better lubrication with high-priced oils in return for the fancy price you pay, well enough—but the superiority of Zerolene in each of the following tests has been demonstrated repeatedly:

1. *Zerolene follows closely the changing clearances* of the moving engine parts; it maintains perfect piston seal always.

2. *Zerolene absorbs less gasoline than other oils;* it resists dilution and emulsification in the crankcase.

3. *Zerolene forms less carbon;* it cuts carbon removal operations from 25% to 50%.

The reason is this: *Zerolene is produced from selected Western Naphthenic-Base Crude,* and vacuum-distilled by the exclusive high-vacuum process developed by this Company.

SONOMA GROWING WHISKERS IN PREPARATION FORNEXT MONTH'S BIG CELEBRATION

By Honoria Tuomey

Whiskers! Again we have them coming forth like spring weeds on the animated faces of the men of a city in the throes of preparation for the observance of a great historical event.

I was a visitor the other day to the lovely little city of Sonoma that is all astir with the importance in the eyes of the rest of the state, and beyond, because soon will arrive the days of the brilliant fiesta to be held in commemoration of the century of its beloved little adobe Mission, San Francisco Solano de Sonoma.

When I stepped off the east-bound stage in the late afternoon and telephoned to my hostess-to-be that I had arrived, it was but a few minutes I had in which to renew acquaintnce with the well white-washed front, barred windows, old-style balcony, and heavy doors of Sonoma county's first courthouse, before a roadster came speeding around the corner of the one-time Fitch adobe and stopped.

Out sprang a young gentleman, and as he bared his head and the light fell full on his face I involuntarily exclaimed, "El Commandante General Vallejo!"

"Oh, no; that was my grand-father. Don't be startled—I am not a ghost!"

"But you are the living image of that grandfather—chops on your cheeks—his image as he looks in his earlier portraits. The resemblance is wonderful. Are whiskers ordered for the men of Sonoma for the Mission celebration?

"Just wait till you promenade our streets tomorrow," was the laughing reply, as the roadster whirled away toward the hacienda of Lachryma Montis, fine old mansiof General M. G. Vallejo.

To keep to the whiskers, sure enough, when I met with the tall involuntary impersonator of Woodrow Wilson, who halves with his charming better half the responsibility of editing and publishing one of Sonoma's live newspapers, I saw more whiskers.

These adornments—I prefer to call them that—depend from the cleft and pointed chin of said half of that particular editorial partnership. All the rest of the classic face was shining with a new, clean shave. But on the chin hung a neat fall of beard about two inches long. It is destined, unless some tragic mishap befall it, to lengthen to chest latitude by June 30, date of the grand opening of La Fiesta Si senor, that chin whisker will be a sight missed by no observant eye, when the celebration is under way. Even the fair Goddess of Liberty from her exalted station in the plaza will glance down at the sea of happy faces and not fail to see that old-time whisker, nobly produced to honor our bewhiskered pioneer fathers. And I nearly forgot to add, a short black pipe of antique pattern sets off the said coming cascade of herbage on that editorial chin.

Then, more mutton chops. It was the chairman of the committee on history and relics. You may know this gentleman is a descendant of an esteemed pioneer who was a resident of Sonoma while yet the red and green flag of Mexico hung at the top of the plaza flagpole, and the Bear Flag party had not been formed. For just seventy-five years this fine old family has owned and occupied its present property, only a minute's walk distant from the Mission church.

There they were, again patterned after those of General Vallejo, and giving their wearer much the aspect of the benign and victorious first Spaniard of California—chops that swing in a shallow curve from ear to nose above, and sweep from nose to ear with a deep curve that follows the angle of the jaw. May they grow and prosper and rival the luzuriant, curling cheek-banners that distinguished the man who founded Sonoma and did enough other big things to make him an immortal!

On my way about the city, across the plaza, in and out of shops I saw them—the treasured, coaxed, eagerly watched whiskers. They're coming on well, dear people, coming on well, if it is dry spring and stubbles get itchy and friend wife and friend Sweetheart and friend baby and baby friend do squeal and struggle to get out of their scratchy range when you approach, and make attempts to show tender regard.

Just before the west-bound stage was due I stepped into a fruit store. A tall, handsome young Italian waited on me. The whole area whereon whiskers grow on men's faces was covered, on his face, with a soft, curling brown growth, of date, I conjectured, not long after the first instant, I remarked of this polite and pleasant young man that he, too, was growing whiskers, wherewith to decorate the Mission Centennial.

"But you prefer the full set," I added, "Instead of just a chin whisker or side chops."

" No ma'am, not all my face full," rather slyly he answered, as he handed me the change. "Thees part"—touching the region where mutton chops do prevail—"thees part I keep on thees part"—running finger over upper lip and chin. "I shave every Saturday night. Tomorrow ess Saturday."

Then I perceived, as he raised his face to demonstrate the territory to be shorn weekly as usual, that the crop of side chops was about three times the length of the rest of the sprouting parsley. Here was another Sonoman loyal to the peculiar style of whiskers favored all his long adult years of Mariano Guadalupe Vallejo. Out of that complete crop will emerge once once a week, a pair of increasingly beautiful "Vallejo chops"—why not call them that, dear people? The style was distinctly Vallejo's in this region, and "Vallejo chops" will be recognized and hailed with joyous acclaim by the tens of thousands of loyal Californians who will throng the historic places of old Pueblo de Sonoma, favored by the famous Commandante General Vallejo, around the sacred premises of El Mission San Francisco Solano de Sonoma.

Increase and multiply, illustrious "Vallejo Chops!"

Protect your house from the weather

IT is the effect of rain, wind and sun on the unpainted parts of a house that "weathers" it—that makes it age and decay. But when a house is well painted, the tough, elastic "film" of paint shields the surface like a rubber coat protects a man.

Fuller House Paints come in a variety of colors. They are composed of high-grade materials perfectly combined in correct proportions,—the result of 74 years' paint-making experience.

Get in touch with a master painter before the weather causes your house to begin to deteriorate. Or write to our Service Department for advice and a copy of the free "Home Service" booklet. Whatever your painting need, W. P. Fuller & Co. makes a paint for the purpose.

Acting Chairlady,

RETURNED FROM L. A.

Mr. and Mrs. J. Newcom have returned from a visit to Los Angeles and vicinity. They were charmed with the high class improvements of the south and the booster spirit everywhere evident there. The city of Los Angeles seemed to be jammed with tourists and it was hard to get waited on in stores, go up in elevators or get across streets. The Newcoms predict that a lot of the traffic will crowd into the north of the State and will then realize the natural beauties and advantages awaiting development here.

Live realty firms of the South sell off barren tracts at fancy prices by giving high class free excursions and fine eats to prospective buyers.

Relatives of the Newcoms are subdividing a 4 acre orange grove into city lots which are selling for $2500 and up.

Mr. and Mrs. Newcom's daughter and son in law Mr. and Mrs. N. Weltz have decided to return to Martinez to make their home.

KERRIGAN'S BOOST FOR SONOMA HEARD IN YOSEMITE

The Sonoma Mission Centennial is well advertised in Yosemite Valley Upon a recent visit there it was discovered that the forest rangers and park officials knew all about Sonoma's big time and the 12 million chickens more or less who are coming here from Petaluma. It got into Yosemite via Kerrigan's broadcasting over the radio. Kerrigan, the Petaluma Chamber of Commerce leader put on a fine program over the Mercantile Trust Co. radio and the Patriarchs Militant Band, the official band of the celebration played between Kerrigan boosts. It was a good stunt. We thank friend Kerrigan and the twelve million chickens who are coming over to Sonoma's coming fiesta.

Let us take care of your clothes, we are expert in our line, good work and prompt service always. When it comes to Tailoring, we are right there with the good, fit, workmanship and price guaranteed.

Paint for this big barn less than $20.00

YOU begin to realize how far *Certain-teed* paint goes when you see that only 10 gallons are needed for a barn like this (72'x34'). If you have a barn about this size, you can safely figure that about $20 worth of this paint will give it two good coats. On any other buildings needing paint we will be glad to give you estimates if you will bring in the measurements.

There is lasting satisfaction in using *Certain-teed* paint. It is made from the best ingredients and mixed thoroughly and accurately by machines. Every gallon measures up to the same high standard.

WE want to sell you Certain-teed because it has more body, covers more surface to the gallon, and wears longer than ordinary paint.
